Healthy Hearing Open House
FEBRUARY 28, 2020

At this event, you can...

- Learn more about your hearing through a FREE HEARING SCREENING.
- Experience new hearing aid technology.
- Discover strategies for optimizing hearing and communication.

Prevention - Identification - Treatment

February is American Heart Month! Did you know patients with a history of cardiovascular disease are 54 percent more likely to experience hearing loss than those with healthy hearts?*

If you suspect you have changes in your hearing, join us for a FREE HEARING SCREENING on February 28, 2020, to learn more.

This February, take control of your hearing health!
